New Attractions

Heritage Park - Prospect Ridge Project

Prospect Ridge brings Western Canada's energy and natural resource stories to life. Through these immersive exhibits and new programming, Heritage Park shares the stories of the ingenuity and drive of the pioneers of Western Canada's energy industry as gas, oil and minerals were discovered.

Guests will discover a display of historical exhibits including:

- The Bow Elbow Valley Coal Mine office
- The Prospectors Cabin depicting the gold rush
- The Coal Mine tunnel, where you can put on your head lamp and discover its depths
- The renewed Dingman Number 1 Discovery Well, where you can pick your stocks in the exciting era of the 1914 oil strike
- A working water wheel
- A First Nations interpretive trail physically and thematically connects all of these exhibits together
