

**Property:**

Banff Aspen Lodge  
401 Banff Avenue  
Banff, Alberta  
T1L 1A9

**Headline:**

Banff Aspen Lodge completes a major hotel wide renovation.

Throughout the fall of 2020 and the spring of 2021 the Banff Aspen Lodge underwent a major renovation. This renovation touched upon all aspects of the hotel including, new hotel wide air conditioning, fully enhanced main lobby, refreshed and updated exterior, expanded award winning Whitebark Cafe and a full renovation of each guest bathroom. New artwork, mattresses, carpet and woodwork complete our guest room renovations.

A huge benefit associated to the renovation was the ability to also enhance the Banff Aspen Lodges environmental commitment. As conscientious hoteliers, we're taking our footprint on the planet seriously and believe that even the day to day actions towards improving sustainability make a difference. We're working to continually look at all areas of our operations and see where improvements can be made.

**Banff Aspen Lodge's Eco Initiatives:**

- (1) Property Wide Recycling program
- (2) Low Flow Toilets and water saving devices install in guest rooms
- (3) Commitment to purchase hand towels and toilet paper with a minimum of 20% recycled material.
- (4) Motion sensor lighting in hallways
- (5) Energy-efficient, smart sensor, temperature control technology in all guest rooms
- (6) Guest Rooms are equipped with eco-friendly amenities
