

Student Groups From Japan Returned to Calgary In Summer 2022

Tourism Calgary, in partnership with Muskoka Language International, was happy to welcome back Japanese student groups to Calgary this summer.

These international visits were paused for the past three years due to the pandemic, so Tourism Calgary was thrilled to finally have the group back to experience our city and take some memorable Calgary stories back home to Osaka. The students were treated to some ice cream from a local food truck, and took part in the White Hat Ceremony making the students honorary Calgarians. The Japanese students then surprised us with a line dance performance!
