The Guided Sightseeing River Cruise: A Must-Do in Quebec City

Croisières AML's guided boat tours have been recognized as one of the top must-do activities in Quebec City for many years. Its popularity has led the leading cruise excursion company in Canada to expand its schedule of guided cruises. In addition to the three guided cruises already offered daily aboard the famous AML Louis Jolliet (at 11:30 AM, 2 PM and 4 PM), there is now a new time slot at 7 PM. It is an ideal opportunity to admire the illuminated city of Quebec and the beautiful sunset.

Let your clients embark on a beautiful journey to discover Quebec City from the river, on an exciting guided cruise on the St. Lawrence. The boat departs from Old Quebec and goes up to the majestic Montmorency Falls, passing by Île d'Orléans, all while enjoying breathtaking views of the Château Frontenac.

From May 11 to November 3, 2024, passengers will be able to explore the urban and natural landscapes of our city while learning numerous anecdotes about its history and landmarks. With Croisières AML's audio guide available in eight languages—French, English, Italian, Spanish, German, Mandarin, Japanese, and Korean—your clients won't miss a single detail.
