Organization: Grouse Mountain Resort

Headline: Mountain Bike Park and Mountain Coaster Coming to Grouse Mountain

News Content: Grouse Mountain is excited to announce the addition of a Mountain Coaster and the North Shore's only chairlift-accessed Mountain Bike Park both opening next spring. The new attractions will open after the launch of the Resort's new state-of-the-art gondola, set to open in winter 2024/25 in what will be an exciting 12 months for Grouse Mountain, as it works to greatly enhance its four-season offerings and the overall guest experience.

The thrill begins with the Mountain Coaster launching in spring 2025, taking adventurers on an exhilarating ride of twists and turns, weaving through a series of trees and exciting features before being greeted by an awe-inspiring view of Vancouver. Guests will enjoy speeds of up to 45 kilometres an hour on the track which includes a vertical descent of 919-metres, a 91-metre vertical drop, and an ascent of 515-metres which returns them to the mountaintop without having to exit the cart.

For guests who would prefer to experience the Mountain on two wheels, the Mountain Bike Park is also set to open in spring, 2025, and will be the only lift-accessed bike park on the North Shore. The Bike Park will host a series of trails ranging from beginner to expert, and all trails will lead back to the Screaming Eagle chairlift to return riders to the mountaintop. With a focus on family-friendly fun and progression, the trails at Grouse Mountain will be a great stepping stone to the world-class trails already present on the North Shore, and will allow for quicker, more frequent laps by eliminating the need for climbing or shuttling.

Since the world's first double chairlift was built at the Resort in 1949, Grouse Mountain has had a rich history of investing in modern, recreational technology. The new gondola, Mountain Coaster, and Mountain Bike Park projects support the continued investment in the world-class experience Grouse Mountain offers and ensures Vancouver's number one natural attraction is accessible for generations to come.
