## ***YWCA Hotel Vancouver Newly Renovated Lobby***

The YWCA Hotel in downtown Vancouver is proud to unveil our newly renovated lobby -- thoughtfully designed by community designers, to enhance comfort and create a welcoming space for our guests and staff.

Inspired by Vancouver's stunning local scenery, the new furniture adds a unique touch to the space, complemented by modern lighting and additional seating. This transformation reflects our commitment to an exceptional guest experience.

As a social enterprise hotel, revenue generated from our 220 guest rooms goes directly to support YWCA community programs and services for women, children and families in our community. The YWCA Hotel is worth checking into!
